Weight	6.0 kg / 13.2 lb
Accessories	Power cord Digital audio cable Analog audio cable LAN cable Quick Start Guide Precautions for Use Warranty (for some regions)

PRODUCT FEATURES

Expanded media support

The CDJ-3000X fully supports playback from cloud storage and music streaming services, and built-in Wi-Fi helps you set up quickly. On the front panel, an NFC touchpoint allows instant access to rekordbox for iOS/Android, and the player features a USB Type-C port for connecting to a USB storage device or PC/Mac.

10.1-inch high-resolution touchscreen

Display up to 16 tracks at once and copy and paste information to the search bar. You can even reorder playlists on-screen.

Global Tag List

Bring tracks from the cloud, streaming services, a USB drive, and your PC/Mac into the same playlist.

Enhanced Hot Cue features

Preview tracks with Touch Cue and set Hot Cues from the point you're monitoring. With Smart Cue, the position and color of a called-up Hot Cue will automatically overwrite the current cue point, and Gate Cue lets you play sound only while you hold down a Hot Cue button.

Evolved reliability and usability

You can depend on the CDJ-3000X more than any CDJ before. The play and cue buttons have been rebuilt to withstand over 500,000 additional presses compared to the previous model, and you can control music more precisely with the expanded range of jog wheel tension adjustment.

Refined sound performance

With a new high-performance DAC made by ESS Technology, the CDJ-3000X achieves a better S/N ratio than the CDJ-3000, resulting in clearer and more refined sound reproduction. A newly designed power supply unit reduces unwanted noise and enhances low-frequency power, delivering punchy bass and a warm tone that won't tire the ears.
